

Labour Demand and Technology

EC306- Wages and Employment

Justin Smith

Wilfrid Laurier University

Fall 2026

Goals of This Section

Goals of This Section

In this section we will:

- Describe how technology changes the jobs we do
- Model capital-labour substitution with two and three factors
- Examine the evidence on skill-biased technological change and job polarization
- Discuss emerging technologies and their effect on labour demand

Technology and the Jobs We Do

TODO — Technology and the Jobs We Do

 Not yet written

BFGLSS 2026 covers:

- The framing section for the chapter. No slides exist.

Capital Labour Substitution

TODO — Capital Labour Substitution

 Not yet written

BFGLSS 2026 covers:

- Two-Factor Model — *the Chapter 8 cost-minimization machinery is a two-factor K/L model already; it needs the technology framing*
- Three-Factor Model

Empirical Evidence

TODO — Skill-Biased Technological Change and Job Polarization

 Not yet written

BFGLSS 2026 covers:

- Skill-Biased Technological Change — *one slide exists in the Chapter 14 deck under Education and Inequality*
- Job Polarization

Emerging Technologies

TODO — Emerging Technologies

 Not yet written

BFGLSS 2026 covers:

- Broadband Internet
- Robotics
- Gig Job Platforms — *Chapter 8 has a Temp and Gig Workers slide, framed as quasi-fixed costs rather than technology*
- Artificial Intelligence
